CHUBB®

Chubb Life in Thailand encourages Chubb LifeBalance app users to turn steps to charity, aiming to support the physically disabled.

Chubb Life in Thailand launches 'Step Up: Every step you take, you pave the way for others' challenge on Chubb LifeBalance to turn steps into monetary donation. Proceeds will go to **The Protheses Foundation of H.R.H. the Princess Mother**, a non-profit organization that provides the physically disabled with free artificial legs in Thailand.

'Everyone has a different goal when it comes to a routine workout, and most people focus on improving their health. While enjoying individual health improvements, wouldn't it be meaningful if we could give back to society at the same time? With this idea in mind, Chubb Life is launching this 'Step Up' challenge to invite Chubb LifeBalance app users to support others in need while making a fitness gain,' said **Angela Hunter, Country President of Chubb Life in Thailand**.

The Protheses Foundation of H.R.H. the Princess Mother has been producing and giving away more than 30,000 artificial legs to the physically disabled. According to The National Statistical Office of Thailand, there are around 50,000 amputees and that number increases around 3,500 every year. Some cannot afford a prosthetic leg, while others live in remote areas and have limited access to receive proper rehabilitation treatment.

'Step Up: Every step you take, you pave the way for others' will be taking place during April 9 – May 9, 2022. Chubb Life in Thailand will donate 10 baht to Protheses Foundation for every 1,000 steps recorded in the challenge up to a total contribution of 100,000 baht.
